# Goals for today

(this will be an interactive meeting)

- Community Update of Recent Activity
- Overview of What is Next
- Community Input
- Next Steps

# Goals for today

(this will be an interactive meeting)

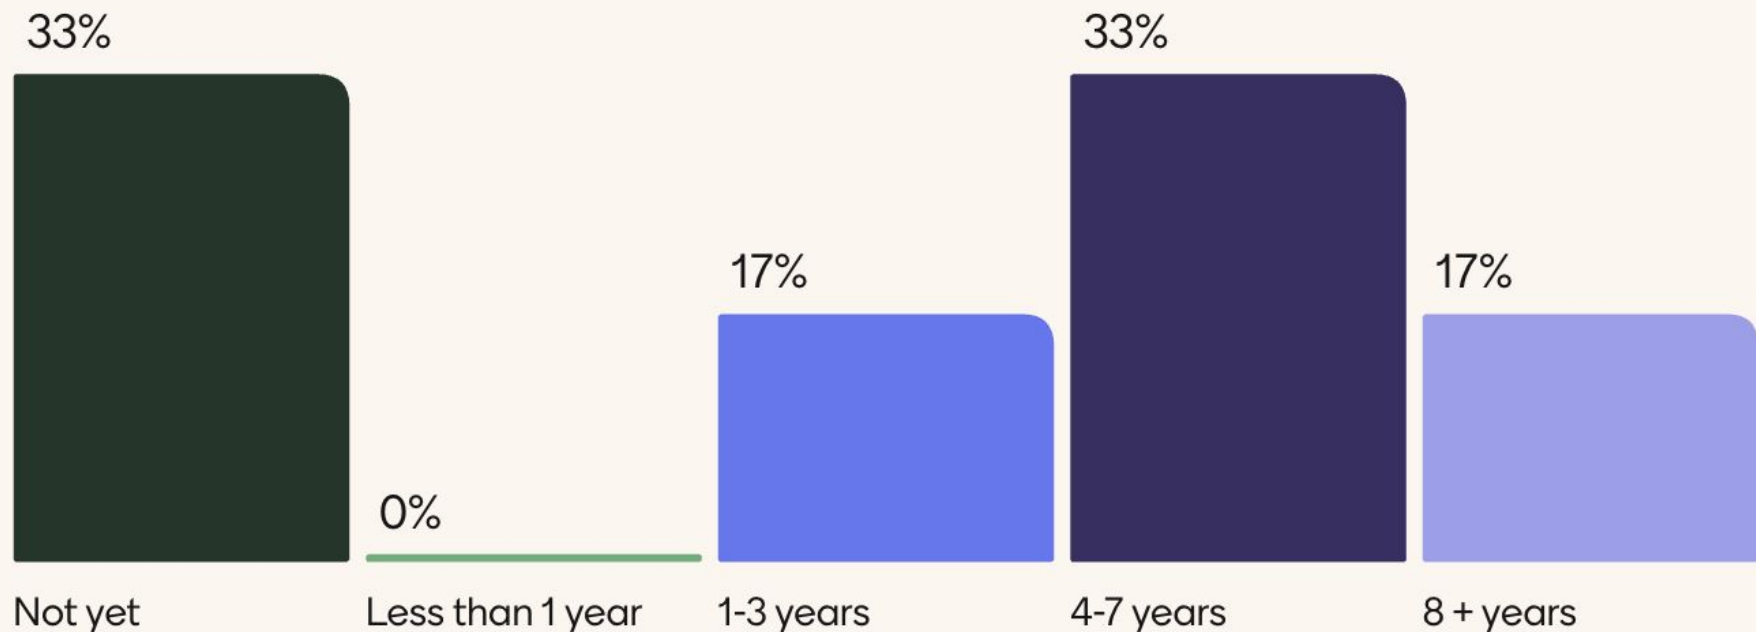

- Community Update of Recent Activity
- Overview of What is Next
- Community Input
- Next Steps

But first...  
who is here?

## How long have you been working with IdPY?

What word(s) describe your relationship to IdPY?

# Community Update

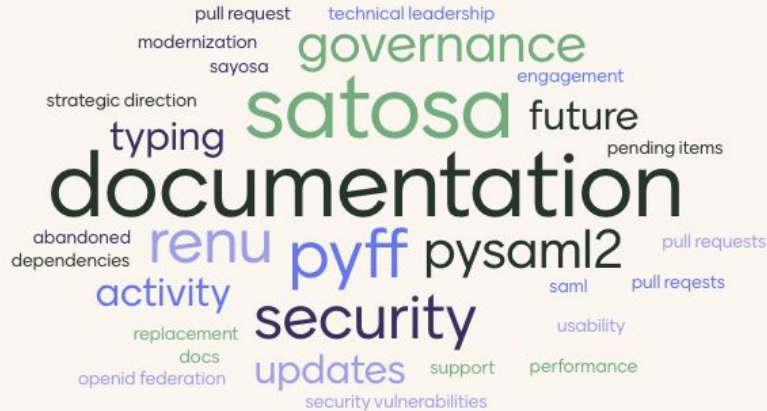

# What has been going on the last 6 months?

- Resumption of board meetings
  - Last meeting before resuming: 2024-Jan
  - Recent meetings: 2025-Dec; 2026-Jan; 2026-May
- Technical in-person Discussion: TIIME, Amsterdam 2026-Feb  
<https://bit.ly/4eeDRKP>
- Board Technical Discussions
  - Informal meetings at TIIME and TNC
  - Technology Re-engagement Charter

What word(s) would appear in your IdPY top mentioned list?

# What's Next?

Getting the Band Back Together

# IdPY Technical Team Re-Kickoff

- The start of a 6-month effort
- 8-12 people have already expressed interest
- Technical Charter created: <https://bit.ly/43BgdsF>

# What's in the Technical Charter?

- Goals
  - Stabilizing technical practices
  - Clarifying maintainership and contributor pathways
  - Align code, documentation & governance
  - Support Board in making actionable policy

## 2026 IdentityPython (IdPY) Contributor Team Transition Charter

*Six-month Charter (Effective March 2026 - September 2026)*

---

### 1. Purpose

The IdentityPython Contributor Transition Team ("Transition Team") is established to guide the project through a structured transition from its current development model to a more sustainable, transparent, and maintainable future state.

This is a six-month working charter focused on:

- Stabilizing technical practices
- Clarifying maintainership and contributor pathways
- Aligning code, documentation, and governance
- Supporting the Board in making policy actionable within a largely volunteer-driven open source community

This is a transition period. The goal is not to redesign the project from scratch, but to create clarity, sustainability, and shared ownership.

### 2. Scope of Work (Six-Month Focus)

During this charter period, the Transition Team will focus on the following areas:

#### A. Refining and Executing a Practical Work Plan

Within the first 30 days, the team will:

- Define and publish a scoped 6-month technical work plan
- Identify priority stabilization and simplification tasks
- Clarify which efforts are in scope vs. out of scope during this period

The work plan should reflect available volunteer capacity and aim for achievable outcomes.

#### B. Team Structure & Roles

The Transition Team will define and operationalize a clear contributor structure, including:

- **Maintainer Role (formalized)**
  - Responsible for merge decisions, release coordination, and code health oversight
  - Serves as the primary steward of the main branch
- Contributors (active code contributors)
- Project Stewards (longer-term technical continuity and architectural guidance)

The team will:

- Document responsibilities and expectations for each role
- Define a lightweight decision-making model
- Establish a clear pathway for onboarding new contributors

# What's in the Technical Charter?

- Operating Principles
  - Operational stability over architectural churn
  - Transparency in process and decisions
  - Respect for prior contributions
  - Sustainable volunteer engagement
  - Incremental improvement rather than disruptive change
  - Open participation consistent with open source norms

## 2026 IdentityPython (IdPY) Contributor Team Transition Charter

*Six-month Charter (Effective March 2026 - September 2026)*

---

### 1. Purpose

The IdentityPython Contributor Transition Team ("Transition Team") is established to guide the project through a structured transition from its current development model to a more sustainable, transparent, and maintainable future state.

This is a six-month working charter focused on:

- Stabilizing technical practices
- Clarifying maintainership and contributor pathways

The team will:

- Document responsibilities and expectations for each role
- Define a lightweight decision-making model
- Establish a clear pathway for onboarding new contributors

# What's in the Technical Charter?

- Deliverables (6-months)
  1. Documented 6-month work plan
  2. A defined and functioning maintainer model
  3. A documented technical governance workflow
  4. A fork review summary and integration roadmap
  5. A prioritized documentation roadmap
  6. Regular technical coordination meetings
